**RE: GREGORY CANYON LANDFILL (GCLF) PROJECT
NOTICE OF INTENT (NOI) - GENERAL PERMIT TO DISCHARGE STORM WATER
ASSOCIATED WITH INDUSTRIAL AND CONSTRUCTION ACTIVITIES**

Dear Mr. Fujimoto:

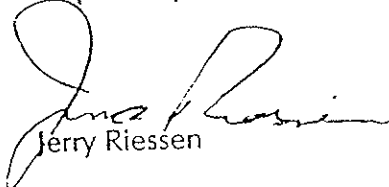

Gregory Canyon Limited (GCL) is pleased to submit a NOI package for General Permits to Discharge Storm Water Associated with Industrial Activity and Construction Activity for the proposed GCLF project. This submittal includes the appropriate NOI forms (industrial and construction) and a copy of the site map, which accompanies each filing.

It is our understanding that the fee to process these permits are waived since an application fee of \$10,000 has already been submitted directly to the Regional Water Quality Control Board (RWQCB), San Diego Region (Mr. Mark Alpert) to process the Waste Discharge Requirements (WDR).

It should also be noted that a Joint Technical Document (JTD) (dated March, 1999) has been submitted to both the County of San Diego, Department of Environmental Health Services (Ms. Michelle Stress), acting as the duly certified enforcement agency (EA) as recognized by the California Integrated Waste Management Board (CIWMB), and the RWQCB, San Diego Region (Mr. Mark Alpert) in order to obtain a Solid Waste Facilities Permit (SWFP) and WDRs, respectively, for the proposed GCLF project. The Storm Water Pollution Prevention Plan (SWPPP) and Monitoring Program and Reporting Requirements (MPRR) Plan, prepared for the GCLF, are both included as an appendix to the JTD.

If you should have any questions regarding these submittals, please advise.

Respectfully submitted,

Jerry Riessen

RE: GREGORY CANYON LANDFILL (GCLF) PROJECT
NOTICE OF INTENT (NOI) - GENERAL PERMIT TO DISCHARGE STORM WATER
ASSOCIATED WITH INDUSTRIAL AND CONSTRUCTION ACTIVITIES

=====

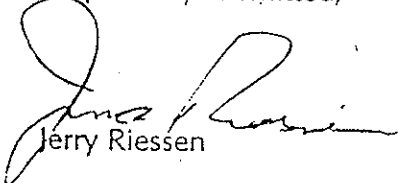

Dear Mr. Fujimoto:

Recently, Gregory Canyon Limited (GCL) submitted NOI packages for General Permits to Discharge Storm Water Associated with Industrial Activity and Construction Activity for the proposed GCLF project. These submittals included the appropriate NOI forms (industrial and construction) and a copy of the site map, which accompanied each filing. However, the NOI packages were rejected. It is our understanding, based on your letter dated March 31, 1999, that the Industrial Activity NOI cannot be processed until Waste Discharge Requirements (WDRs) for the site have been approved. In addition, the Construction Activity NOI must be accompanied by an application fee of \$250.00 in order to process the NOI. Therefore, based on your letter, we resubmit only the Construction Activity NOI along with a check for \$250 to process this package.

As we mentioned in our previous letter (dated March 29, 1999), the Storm Water Pollution Prevention Plan (SWPPP) and Monitoring Program and Reporting Requirements (MPRR) Plan, prepared for the GCLF, are both included as an appendix to the Joint Technical Document (JTD), dated March, 1999.

If you should have any questions regarding this submittal, please advise or you may contact Mr. John Boucher of Bryan A. Stirrat & Associates, Inc. (BAS) at (909) 860-7777.

Respectfully submitted,

Jerry Riessen

BILLING ADDRESS

Send Bill to: <input checked="" type="checkbox"/> OWNER (as in II. above)	Name		
	Mailing Address		
	City	State	Zip

I. REGULATORY STATUS

1. Has a local agency approved a required erosion/sediment control plan? ☒ YES ☐ NO
2. Does the erosion/sediment control plan address construction activities such as infrastructure and structures? ☒ YES ☐ NO
3. Name of local agency: San Diego Regional Water Quality Control Board Phone: (619) 467-2963
4. Is this project, or any part thereof, subject to conditions imposed under a CWA Section 404 permit or 401 Water Quality Certification? ☒ YES ☐ NO
- If yes, provide details: This project includes construction of a bridge over the San Luis Rey River to access the landfill disposal areas.

II. RECEIVING WATER INFORMATION

1. Does the storm water runoff from the construction site discharge to (Check all that apply):
- ☐ Indirectly to waters of the U.S.
 - ☐ Storm drain system - Enter owner's name: _____
 - ☒ Directly to waters of U.S. (e.g., river, lake, creek, stream, bay, ocean)

2. Name of receiving water: (river, lake, creek, stream, bay, ocean) San Luis Rey River

III. IMPLEMENTATION OF NPDES PERMIT REQUIREMENTS

1. STORM WATER POLLUTION PREVENTION PLAN (SWPPP) (check one)
- ☒ A SWPPP has been prepared for this facility and is available for review:

date prepared: March, 1999 ; date amended: ____/____/____

- ☐ A SWPPP will be prepared and ready for review by (enter date): ____/____/____
- ☐ A tentative schedule has been included in the SWPPP for activities such as grading, street construction, home construction, etc.

2. MONITORING PROGRAM

- ☒ A monitoring and maintenance schedule has been developed that includes inspection of the construction BMPs before anticipated storm events and after actual storm events and is available for review.
- If checked above: A qualified person has been assigned responsibility for pre-storm and post-storm BMP inspections to identify effectiveness and necessary repairs or design changes ☐ YES ☒ NO

Name: _____ Phone: _____

3. PERMIT COMPLIANCE RESPONSIBILITY

A qualified person has been assigned responsibility to ensure full compliance with the Permit, and to implement all elements of the Storm Water Pollution Prevention Plan including:

1. Preparing an annual compliance evaluation ☒ YES ☐ NO

Name: Jerry Riessen Phone: (415) 391-2833

2. Eliminating all unauthorized discharges ☒ YES ☐ NO

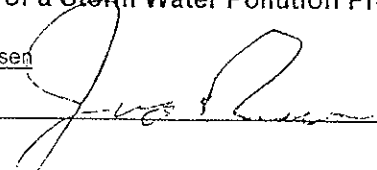

IV. VICINITY MAP AND FEE (must show site location in relation to nearest named streets, intersections, etc.)

1. Have you included a vicinity map with this submittal? ☒ YES ☐ NO An NOI submitted without a site map will be rejected.
2. Have you included payment of the annual fee with this submittal? ☐ YES ☒ NO, a \$10,000 fee to process WDR's for this project has been submitted to the San Diego RWQCB.

CERTIFICATIONS

I certify under penalty of law that this document and all attachments were prepared under my direction and supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment." In addition, I certify that the provisions of the permit, including the development and implementation of a Storm Water Pollution Prevention Plan and a Monitoring Program Plan, will be complied with.

SECTION IV. CONSTRUCTION PROJECT INFORMATION

Site Location: The proposed Gregory Canyon Landfill site is located in northern San Diego County, on State Route 76 (SR-76), approximately three miles east of Interstate 15 (I-15) and two miles southwest of the community of Pala. SR-76 runs east-west through the site. The majority of the site lies to the south of SR-76 but part of the western portion of the site lies to the north of SR-76. The site lies along the western slope of Gregory Mountain and Gregory Canyon is located approximately in the center of the site; the San Luis Rey River runs east-west through the property. The site comprises portions of Sections 4 and 5 of Township 10 South and Sections 32 and 33 of Township 9 South, Range 2 West of USGS 7.5' Pala Quadrangle.
